

ASHTON

v061223

This one plays well with others.

When you need a little structure, want a little comfort, and still have to play well with others, the Ashton is a great choice. Put several Ashton pieces together in your seating area or pair an Ashton with Benchmark ottomans and end tables for an environment that's full of character (just like the Ashton line's bouncy, curly-haired namesake).

Looking to do a whole room?

Meet the Ashton family.
