Many Transformations products incorporate exposed wood and laminate details, including feet, legs, arms and table or bench tops. Our standard Stain & Laminate color palette is available for all

Transformations products, and does not incur upcharges. In addition, custom colors can be specified by contacting your representative or Transformations Customer Service.

Note: Various technical limitations do not allow for a perfect match on stain and laminate colors, either in print or online. The swatches shown here are for reference only and will vary somewhat from actual colors. If precise color match is necessary, please contact your representative or Customer Service at 800.440.9337.
