The Transformations Difference

Say hello to furniture that lasts up to 5x longer*

Traditional furniture looks good on day one, but it's downhill from there. When the inevitable happens—stains, rips, broken parts—you either have to live with the eyesore, or you have to toss it out and buy new. That means more in the landfill and less in your budget.

Transformations Furniture looks great for years to come. With Transformations, every fabric cover, part, and component is made to be swapped out, replaced, and repaired in just a few minutes. And when design trends change, so can your fabric. If you want a new look, simply recover a few pieces and transform your space. Now that's smart for your budget and your eco-footprint.

Enjoy renewable furniture with beautiful form, function, and durability—backed by industry-leading warranties—and make a sustainable furniture investment that will last for years to come.

Visit us at
www.transformationsfurniture.com for products, pricing, and more.

Watch us take this trashed chair and make it new again.

Furniture you can renew instead of replace.

It truly is the long-lasting, cost-saving, better alternative to furnishing your facility.

*compared to traditional furniture

TABLE OF CONTENTS

page 5

v100125

What is truly renewable furniture?

Truly renewable furniture refers to a revolutionary method of furniture assembly by Transformations Furniture. It enables you to maintain or replace the fabric on your furniture quickly and easily.

While others claim their furniture is renewable, only Transformations Furniture meets the three criteria for being “truly renewable.” It’s not renew-ish. It’s the real deal. And we offer this unique construction in all our products—not just a few.

Longest Life

Our industry-leading warranty is proof that Transformations is committed to true renewability that preserves both your facility and the environment.

Premium Inside

You’ll find the highest quality foam, frame, and workmanship underneath the fabric.

Quick Change

You can remove and replace all components within minutes with no special tools* or training.

Please visit us at www.transformationsfurniture.com for products, pricing and more.

Lowest Cost of Ownership

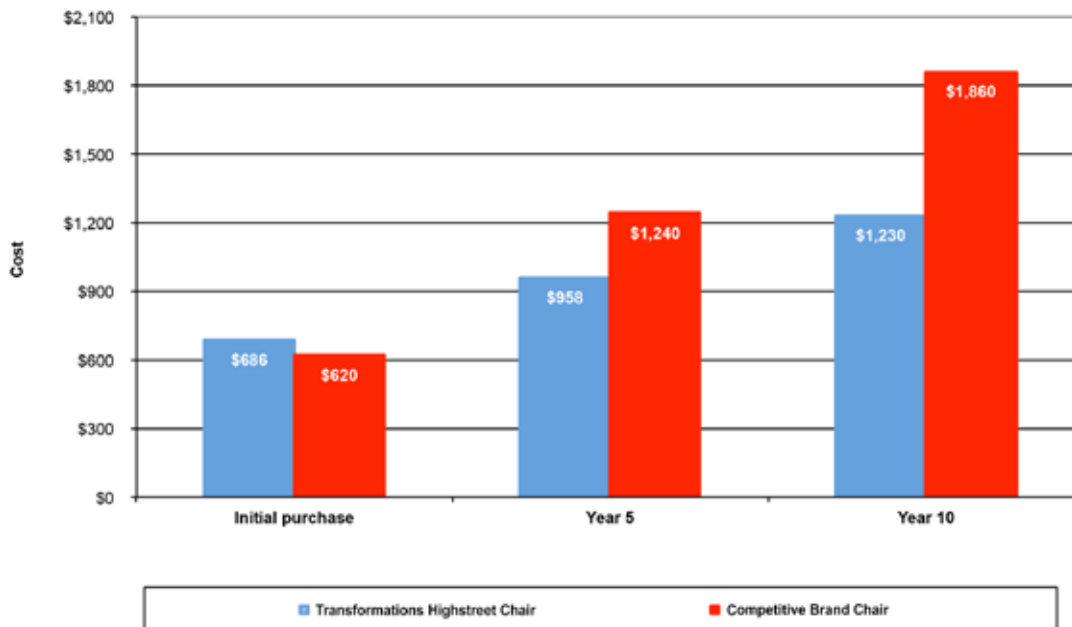

Stretch Your Purchasing Power with Transformations

Transformations Furniture can help organizations stretch their spending power with our unique, renewable construction and procurement program. Transformations manufactures products with industry-leading quality and the lowest cost of ownership.

- Our renewable construction allows you to extend the life of your furniture.
- Refresh your fabrics every 5 to 7 years rather than buying new.
- Replace damaged furniture components rather than buying new.
- Our renewable construction leads the industry with quality workmanship, materials, and warranties.
- Purchase from Transformations on the E&I contract.

Lowest Cost of Ownership

Compare the cost of buying Transformations Furniture with other competitors. While the initial cost to purchase Transformations may be slightly higher, you will profit from industry-leading quality and lowest cost of ownership in the first renew cycle.

Please visit us at www.transformationsfurniture.com for products, pricing, and more.

Green Initiatives

We at Transformations care about our environment and our products reflect that.

Below is a summary of the environmental benefits of our renewable construction.

Transformations endeavors to provide products that deliver
unprecedented Function, Sustainability & Design.

To that end, all our styles are engineered with a lifecycle 3 to 5 times longer
than traditional, disposable seating alternatives.

- When a Transformations product becomes damaged or worn, the damaged part and/or fabric can be replaced, rather than the entire piece taking up space in a landfill.
- The renewable aspect of our furniture dramatically reduces the amount of foam, chemicals, and trees being used, as well as the unnecessary spending of fuel and energy to manufacture new products.
- All chipboard in our products is 100% recycled material.

In addition to building environmentally responsible products, Transformations is taking steps to assure that our factory operates in an environmentally responsible manner, including:

- Foam scraps are down-cycled and made into re-bonded carpet padding.
- Wood scraps are down-cycled and turned into another usable product (such as animal bedding and natural fertilizer products).
- Fabric scraps are used to make stylish tote bags.

Blanket-wrapped is the preferred method of shipment to reduce packing waste.

We're always looking for ways to conserve our valuable resources.

Do you have an idea that may help? Please share it with us!

Reduce, Reuse, Renew, with Transformations Furniture!

Warranties

Warranties

Signature Series • 35-Year Warranty

WARRANTY on all products against defects in materials and workmanship, and against structural damage incurred through normal use, for a period of 35 years from date of purchase.

THE WARRANTY covers the structure of the furniture: the laminated-veneer frame; the construction of the arms, base, back, and all fasteners. The warranty also covers the foam against defects in its manufacture and composition and against “flattening” (not maintaining its original shape) for the same 35-year period. Under this warranty the Supplier will at its option either replace or repair furniture to it or will supply the customer with replacement parts. Fabric and all items beyond Supplier’s control are not covered by this warranty.

EXCLUSIONS to our standard warranty are as follows:

- All fabrics including Customer’s Own Material are covered by the manufacturer’s warranty
- All other material coating and solid surface material including but not limited to: wood stains and finishes, laminate, high-pressured laminate, thermoplastic sheeting and Corian® are covered by the manufacturer’s warranty.

ALL SALES are subject to Transformations® Replacement Program which enables to replace each individual part, including arms, back, base and upholstery (see Assembly/Disassembly/Replaceable Covers Pamphlet). This option provides an incredible value, saving the Member of having to replace the whole unit. Supplier also has the capabilities of having individual parts manufactured and warehoused for immediate replacement or storage at the customer’s facility.

FOR NON-WARRANTY parts, Transformations® creates pricing on an individual part basis, allowing the customer to purchase one or more parts at a time.

Foundations Series • 15-Year Warranty

WARRANTY on all products against defects in materials and workmanship, and against structural damage incurred through normal use, for a period of 15 years from date of purchase.

THE WARRANTY covers the structure of the furniture: the laminated-veneer frame; the construction of the arms, base, back, and all fasteners. The warranty also covers the foam against defects in its manufacture and composition and against “flattening” (not maintaining its original shape) for the same 15-year period. Under this warranty the Supplier will at its option either replace or repair furniture to it or will supply the customer with replacement parts. Fabric and all items beyond vendor’s Supplier’s control are not covered by this warranty.

EXCLUSIONS to our standard warranty are as follows:

- All fabrics including Customer’s Own Material are covered by the manufacturer’s warranty
- All other material coating and solid surface material including but not limited to: wood stains and finishes, laminate, high-pressured laminate, thermoplastic sheeting and Corian® are covered by the manufacturer’s warranty.

ALL SALES are subject to the Transformations® Replacement Program which enables customers’ to replace each individual part, including arms, back, base and upholstery (see Assembly/Disassembly/Replaceable Covers). This option provides an incredible value, saving the customer from having to replace the whole unit. Supplier also has the capability of having individual parts manufactured and warehoused for immediate replacement or storage at the customer’s facility.

FOR NON-WARRANTY parts, Transformations® creates pricing on an individual part basis, allowing the customer to purchase one or more parts at a time.

Many Transformations products incorporate exposed wood and laminate details, including feet, legs, arms and table or bench tops. Our standard Stain & Laminate color palette is available for all

Transformations products, and does not incur upcharges. In addition, custom colors can be specified by contacting your representative or Transformations Customer Service.

Note: Various technical limitations do not allow for a perfect match on stain and laminate colors, either in print or online. The swatches shown here are for reference only and will vary somewhat from actual colors. If precise color match is necessary, please contact your representative or Customer Service at 800.440.9337.

BACK

The back frame is constructed with 7/8" engineered paneling with the support system constructed of 11-gauge sinuous wire linked together with a 12-gauge tie wire. The back support system is covered with woven material and high-density polymeric foam. The outside back of the frame is covered with woven material and an additional piece of high-density polymeric foam. The back frame is secured to the base frame with patented metal brackets attached to the base frame with metal-to-metal connections.

BASE

The base frame is constructed of 7/8" engineered paneling with support system constructed of 8-gauge sinuous wire linked together with 12-gauge tie wire. Patented metal brackets are attached with bolts into steel receivers creating a metal-to-metal connection. Legs are attached with steel bolts. Legs use plastic non-marking glides.

SEAT

Seat cushions are constructed of high-density, polymeric foam. Seat cushions are secured to the base frame with a nylon security strap.

ARM

Arm frames are constructed of 7/8" engineered paneling. The frames are covered utilizing 80-point chipboard and high-density polymeric foam. The frames are secured to the base frame with patented

metal brackets attached to the base frame with metal-to-metal connections.

UPHOLSTERY

All upholstery offerings conform to California Technical Bulletin 117 fire code standard. All estimated yardage quotes are based on 54" non-matched, solid color material unless otherwise specified. Additional yardage and matching fees may apply.

MOISTURE BARRIER

Foam is wrapped with laminated, polyurethane, moisture-barrier.

ASSEMBLY AND DISASSEMBLY

All components can be disassembled and removed by loosening the thumbscrew and sliding the components out of the interlocking state. Assembly can be completed within minutes. Upholstery fastens with hook and loop, facilitating removal and replacement of covers.

WARRANTY

This product is warranted against defects in materials and workmanship and against structural damage occurred through normal use for 35-years from date of purchase. Foam is also covered under the 35-year period while fabric is generally covered under the fabric company's warranty. Transformations does not warrant any materials beyond its control.

BACK

The back frame is constructed with 3/4" engineered paneling with the support system constructed of 11-gauge sinuous wire linked together with a 12-gauge tie wire. The back support system is covered with woven material and high-density polymeric foam. The outside back of the frame is covered with woven material and an additional piece of high-density polymeric foam. The back frame is secured to the base frame with patented metal brackets attached to the base frame with metal- to-metal connections.

BASE

The base frame is constructed of 3/4" engineered paneling with support system constructed of 8-gauge sinuous wire linked together with 12-gauge tie wire. Patented metal brackets are attached with bolts into steel receivers creating a metal-to-metal connection. Legs are attached with steel bolts. Legs use plastic non-marking glides.

SEAT

Seat cushions are constructed of high-density, polymeric foam. Seat cushions are secured to the base frame with a nylon security strap.

ARM

Arm frames are constructed of 3/4" engineered paneling. The frames are covered utilizing 80-point chipboard and high-density polymeric foam. The

frames are secured to the base frame with patented metal brackets attached to the base frame with metal- to-metal connections.

UPHOLSTERY

All upholstery offerings conform to California Technical Bulletin 117 fire code standard. All estimated yardage quotes are based on 54" non-matched, solid color material unless otherwise specified. Additional yardage and matching fees may apply.

MOISTURE BARRIER

Foam is wrapped with laminated, polyurethane, moisture-barrier.

ASSEMBLY AND DISASSEMBLY

All components can be disassembled and removed by loosening the thumbscrew and sliding the components out of the interlocking state. Assembly can be completed within minutes. Upholstery fastens with hook and loop, facilitating removal and replacement of covers.

WARRANTY

This product is warranted against defects in materials and workmanship and against structural damage occurred through normal use for 35-years from date of purchase. Foam is also covered under the 35-year period while fabric is generally covered under the fabric company's warranty. Transformations does not warrant any materials beyond its control.

BUTLER

v100125

Dignified but still modest, meet the Butler.

A good butler anticipates needs. This butler does just that by welcoming your visitors, clients, or students and surrounding them in comfort. With its high back, this stately chair offers both privacy and support. You can easily create an intimate setting by nestling two Butler chairs together.

Save Time, Money, and the Environment.

We know life can be hard and messy. On any given day, those chairs and sofas in your lounge, lobby, or common area might be seats, beds, tables, footrests, and even trampolines. You can relax knowing every piece of Transformations Furniture is built to last, comes with a 15- or 35-year warranty, and is 100% renewable upholstered seating. When the inevitable spills, scuffs, scratches, and worse happen, simply clean the covers or repair or replace a damaged part or cover in just a few minutes—no tools required. Want a new look? Simply recover a few pieces and transform your space with the Keep-It program.

Cambridge Specifications

BACK

The back frame is constructed with 7/8" engineered paneling with the support system constructed of 11-gauge sinuous wire linked together with a 12-gauge tie wire. The back support system is covered with woven material and high-density polymeric foam. The outside back of the frame is covered with woven material and an additional piece of high-density polymeric foam. The back frame is secured to the base frame with patented metal brackets attached to the base frame with metal- to-metal connections.

BASE

The base frame is constructed of 7/8" engineered paneling with support system constructed of 8-gauge sinuous wire linked together with 12-gauge tie wire. Patented metal brackets are attached with bolts into steel receivers creating a metal-to-metal connection. Legs are attached with steel bolts. Legs use plastic non-marking glides.

SEAT

Seat cushions are constructed of high-density, polymeric foam. Seat cushions are secured to the base frame with a nylon security strap.

ARM

Arm frames are constructed of 7/8" engineered paneling. The frames are covered utilizing 80-point chipboard and high-density polymeric foam. The frames are secured to the base frame with patented metal brackets attached to the base frame with metal- to-metal connections.

UPHOLSTERY

All upholstery offerings conform to California Technical Bulletin 117 fire code standard. All estimated yardage quotes are based on 54" non-matched, solid color material unless otherwise specified. Additional yardage and matching fees may apply.

MOISTURE BARRIER

Foam is wrapped with laminated, polyurethane, moisture-barrier.

ASSEMBLY AND DISASSEMBLY

All components can be disassembled and removed by loosening the thumbscrew and sliding the components out of the interlocking state. Assembly can be completed within minutes. Upholstery fastens with hook and loop, facilitating removal and replacement of covers.

WARRANTY

This product is warranted against defects in materials and workmanship and against structural damage occurred through normal use for 35-years from date of purchase. Foam is also covered under the 35-year period while fabric is generally covered under the fabric company's warranty. Transformations does not warrant any materials beyond its control.

GRAYDON

v100125

Who says squares can't have fun?

The Graydon combines function and comfort with an aesthetically pleasing form. If you want your gathering area to not only serve its purpose but also boast a unique composition, look no further than the Graydon. Crisp, square lines create both cohesion and definition.

Save Time, Money, and the Environment.

We know life can be hard and messy. On any given day, those chairs and sofas in your lounge, lobby, or common area might be seats, beds, tables, footrests, and even trampolines. You can relax knowing every piece of Transformations Furniture is built to last, comes with a 15- or 35-year warranty, and is 100% renewable upholstered seating. When the inevitable spills, scuffs, scratches, and worse happen, simply clean the covers or repair or replace a damaged part or cover in just a few minutes—no tools required. Want a new look? Simply recover a few pieces and transform your space with the Keep-It program.

HIGHSTREET

v100125

Casual, but oh so sophisticated.

With softly sloped cushions and a variety of arm styles, the Highstreet pulls off casual sophistication with ease. This blend creates an attractive piece that takes charge in any seating arrangement. Add the slide-out ottoman feature, and your guests, students, or clients can relax and stretch their legs for a while before going about their way again.

Looking to do a whole room?

Meet the Highstreet family.

Highstreet Specifications

BACK

The back frame is constructed with 3/4" engineered paneling with the support system constructed of 11-gauge sinuous wire linked together with a 12-gauge tie wire. The back support system is covered with woven material and high-density polymeric foam. The outside back of the frame is covered with woven material and an additional piece of high-density polymeric foam. The back frame is secured to the base frame with patented metal brackets attached to the base frame with metal-to-metal connections.

BASE

The base frame is constructed of 3/4" engineered paneling with support system constructed of 8-gauge sinuous wire linked together with 12-gauge tie wire. Patented metal brackets are attached with bolts into steel receivers creating a metal-to-metal connection. Legs are attached with steel bolts. Legs use plastic non-marking glides.

SEAT

Seat cushions are constructed of high-density, polymeric foam. Seat cushions are secured to the base frame with a nylon security strap.

ARM

Arm frames are constructed of 3/4" engineered paneling. The frames are covered utilizing 80-point chipboard and high-density polymeric foam. The frames are secured to the base frame with patented metal brackets attached to the base frame with metal-to-metal connections.

UPHOLSTERY

All upholstery offerings conform to California Technical Bulletin 117 fire code standard. All estimated yardage quotes are based on 54" non-matched, solid color material unless otherwise specified. Additional yardage and matching fees may apply. Moisture Barrier
Foam is wrapped with laminated, polyurethane, moisture-barrier.

MOISTURE BARRIER

Foam is wrapped with laminated, polyurethane, moisture-barrier.

ASSEMBLY AND DISASSEMBLY

All components can be disassembled and removed by loosening the thumbscrew and sliding the components out of the interlocking state. Assembly can be completed within minutes. Upholstery fastens with hook and loop, facilitating removal and replacement of covers.

WARRANTY

This product is warranted against defects in materials and workmanship and against structural damage occurred through normal use for 35-years from date of purchase. Foam is also covered under the 35-year period while fabric is generally covered under the fabric company's warranty. Transformations does not warrant any materials beyond its control.

HIGHSTREET

WINGBACK

v100125

Commanding and classy.

Wingback chairs aren't just for the boardroom. But they still command attention no matter where they are. When you sit in the Highstreet Wingback, you'll feel like you run the place. Put a Highstreet Wingback in a residence hall or lobby and watch the sophistication level in your environment go up a notch.

Save Time, Money, and the Environment.

We know life can be hard and messy. On any given day, those chairs and sofas in your lounge, lobby, or common area might be seats, beds, tables, footrests, and even trampolines. You can relax knowing every piece of Transformations Furniture is built to last, comes with a 15- or 35-year warranty, and is 100% renewable upholstered seating. When the inevitable spills, scuffs, scratches, and worse happen, simply clean the covers or repair or replace a damaged part or cover in just a few minutes—no tools required. Want a new look? Simply recover a few pieces and transform your space with the Keep-It program.

MAX

v100125

This one hugs you. You'll probably want to hug it back.

This one-of-a-kind chair was crafted to add unique aesthetic appeal to any environment. From a busy lobby to a university study hall, the Max's mid-back design encourages conversation and interaction, while simultaneously providing support that's as comfortable as a hug.

Save Time, Money, and the Environment.

We know life can be hard and messy. On any given day, those chairs and sofas in your lounge, lobby, or common area might be seats, beds, tables, footrests, and even trampolines. You can relax knowing every piece of Transformations Furniture is built to last, comes with a 15- or 35-year warranty, and is 100% renewable upholstered seating. When the inevitable spills, scuffs, scratches, and worse happen, simply clean the covers or repair or replace a damaged part or cover in just a few minutes—no tools required. Want a new look? PORTAGE

v100125

You'll want to call dibs on this one.

The Portage is so comfortable, your guests or students will race to the lounge, lobby, or common area to claim this favored seat before anyone else can. And there's no need for extra pillows because, well, it's basically already one giant pillow. Create an extra cozy environment by putting several of these pieces together, or mix things up by pairing a Portage chair, loveseat, or sofa with a large, round Benchmark ottoman.

Looking to do a whole room?

Meet the Portage family.

Pulse Specifications

BACK

The back frame is constructed with 7/8" engineered paneling with the support system constructed of 11-gauge sinuous wire linked together with a 12-gauge tie wire. The back support system is covered with woven material and high-density polymeric foam. The outside back of the frame is covered with woven material and an additional piece of high-density polymeric foam. The back frame is secured to the base frame utilizing a patented interlocking frame construction. The back is secured using metal-to-metal connections.

BASE

The base frame is constructed of 7/8" engineered paneling with support system constructed of 8-gauge sinuous wire linked together with 12-gauge tie wire. Legs are attached with steel bolts. Legs use plastic non-marking glides.

SEAT

Seat cushions are constructed of high-density, polymeric foam. Seat cushions are secured to the base frame with a nylon security strap.

ARM

Arm frames are constructed of 7/8" engineered paneling. The frames are covered utilizing 80-point chipboard and high-density polymeric foam. The arm frame is secured to the base frame utilizing a patented interlocking frame construction. The arm is secured using metal-to-metal connections.

UPHOLSTERY

All upholstery offerings conform to California Technical Bulletin 117 fire code standard. All estimated yardage quotes are based on 54" non-matched, solid color material unless otherwise specified. Additional yardage and matching fees may apply.

MOISTURE BARRIER

Foam is wrapped with laminated, polyurethane, moisture-barrier.

ASSEMBLY AND DISASSEMBLY

All components can be disassembled and removed by loosening the thumbscrew and sliding the components out of the interlocking state. Assembly can be completed within minutes. Upholstery fastens with hook and loop, facilitating removal and replacement of covers.

WARRANTY

This product is warranted against defects in materials and workmanship and against structural damage occurred through normal use for 35-years from date of purchase. Foam is also covered under the 35-year period while fabric is generally covered under the fabric company's warranty. Transformations does not warrant any materials beyond its control.

Pulse- AA, FC, RA, SA Bariatric Specifications

BACK

The back frame is constructed with 7/8" engineered paneling with the support system constructed of 11-gauge sinuous wire linked together with a 12-gauge tie wire. The back support system is covered with woven material and high-density polymeric foam. The outside back of the frame is covered with woven material and an additional piece of high-density polymeric foam. The back frame is secured to the base frame utilizing a patented interlocking frame construction. The back is secured using metal-to-metal connections.

BASE

The base frame is constructed of 7/8" engineered paneling with support system constructed of 8-gauge sinuous wire linked together with 12-gauge tie wire. Legs are attached with steel bolts. Legs use plastic non-marking glides.

SEAT

Seat cushions are constructed of high-density, polymeric foam. Seat cushions are secured to the base frame with a nylon security strap.

ARM

Arm frames are constructed of 7/8" engineered paneling. The frames are covered utilizing 80-point chipboard and high-density polymeric foam. The arm frame is secured to the base frame utilizing a patented interlocking frame construction. The arm is secured using metal-to-metal connections.

UPHOLSTERY

All upholstery offerings conform to California Technical Bulletin 117 fire code standard. All estimated yardage quotes are based on 54" non-matched, solid color material unless otherwise specified. Additional yardage and matching fees may apply.

MOISTURE BARRIER

Foam is wrapped with laminated, polyurethane, moisture-barrier.

ASSEMBLY AND DISASSEMBLY

All components can be disassembled and removed by loosening the thumbscrew and sliding the components out of the interlocking state. Assembly can be completed within minutes. Upholstery fastens with hook and loop, facilitating removal and replacement of covers.

WARRANTY

This product is warranted against defects in materials and workmanship and against structural damage occurred through normal use for 35-years from date of purchase. Foam is also covered under the 35-year period while fabric is generally covered under the fabric company's warranty. Transformations does not warrant any materials beyond its control.

CHAIR/SLIDE-OUT OTTOMAN

v100125

Cozy comfort made beautiful.

Save Time, Money, and the Environment.

We know life can be hard and messy. On any given day, those chairs and sofas in your lounge, lobby, or common area might be seats, beds, tables, footrests, and even trampolines. You can relax knowing every piece of Transformations Furniture is built to last, comes with a 15- or 35-year warranty, and is 100% renewable upholstered seating. When the inevitable spills, scuffs, scratches, and worse happen, simply clean the covers or repair or replace a damaged part or cover in just a few minutes—no tools required. Want a new look? Simply recover a few pieces and transform your space with the Keep-It program.

Ridge Specifications

BACK

The back frame is constructed with 3/4" engineered paneling with the support system constructed of 11-gauge sinuous wire linked together with a 12-gauge tie wire. The back support system is covered with woven material and high-density polymeric foam. The outside back of the frame is covered with woven material and an additional piece of high-density polymeric foam. The back frame is secured to the base frame with patented metal brackets attached to the base frame with metal- to-metal connections.

BASE

The base frame is constructed of 3/4" engineered paneling with support system constructed of 8-gauge sinuous wire linked together with 12-gauge tie wire. The seat foam is constructed of high-density, polymeric foam. Patented metal brackets are attached with bolts into steel receivers creating a metal-to-metal connection. Legs are attached with steel bolts. Legs use plastic non-marking glides.

ARM

Arm frames are constructed of 3/4" engineered paneling. The frames are covered utilizing 80-point chipboard and high-density polymeric foam. The frames are secured to the base frame with patented metal brackets attached to the base frame with metal- to-metal connections.

UPHOLSTERY

All upholstery offerings conform to California Technical Bulletin 117 fire code standard. All estimated yardage quotes are based on 54" non-matched, solid color material unless otherwise specified. Additional yardage and matching fees may apply.

MOISTURE BARRIER

Foam is wrapped with laminated, polyurethane, moisture-barrier.

ASSEMBLY AND DISASSEMBLY

All components can be disassembled and removed by loosening the thumbscrew and sliding the components out of the interlocking state. Assembly can be completed within minutes. Upholstery fastens with hook and loop, facilitating removal and replacement of covers.

WARRANTY

This product is warranted against defects in materials and workmanship and against structural damage occurred through normal use for 35-years from date of purchase. Foam is also covered under the 35-year period while fabric is generally covered under the fabric company's warranty. Transformations does not warrant any materials beyond its control.

RISE

v100125

Elevate your space.

Introducing Rise, the furniture collection that will take your seating to new heights. Each piece, ranging from chair to sectional, features a contemporary, minimalist design with an added touch of style and sophistication. Its elegant, tall legs look like wood, but have the strength of metal. Smooth silhouettes round out this exceptional collection and ensure it will seamlessly blend into any space, from larger common areas to smaller dorms and offices.

AARON

v100125

Confident. Capable. Complementary.

With a solid maple frame and exposed wood back, the Aaron chair adds an element of character and a fun twist to any space. Its adaptable design easily complements both modern and traditional environments. The Aaron pairs nicely with a Lacy LSL loveseat (low-sloped arm).

Save Time, Money, and the Environment.

We know life can be hard and messy. On any given day, those chairs and sofas in your lounge, lobby, or common area might be seats, beds, tables, footrests, and even trampolines. You can relax knowing every piece of Transformations Furniture is built to last, comes with a 15- or 35-year warranty, and is 100% renewable upholstered seating. When the inevitable spills, scuffs, scratches, and worse happen, simply clean the covers or repair or replace a damaged part or cover in just a few minutes—no tools required. Want a new look? Simply recover a few pieces and transform your space with the Keep-It program.

AVA

v100125

Modern. Minimal. Marvelous.

Renew your space with the perfectly proportioned Ava chair. This modern design blends the elegance of soft, clean lines with the perfection of lasting comfort. Designed with precision and care, the sensible arm height is excellent for guests or students working on a laptop or waiting for their next class or appointment.

Save Time, Money, and the Environment.

We know life can be hard and messy. On any given day, those chairs and sofas in your lounge, lobby, or common area might be seats, beds, tables, footrests, and even trampolines. You can relax knowing every piece of Transformations Furniture is built to last, comes with a 15- or 35-year warranty, and is 100% renewable upholstered seating. When the inevitable spills, scuffs, scratches, and worse happen, simply clean the covers or repair or replace a damaged part or cover in just a few minutes—no tools required. Want a new look? Simply recover a few pieces and transform your space with the Keep-It program.

Ava Specifications

CODE	ITEM	W	D	AH	BH	SW	SD	SH	WT
AV-C-SA	CHAIR WITH STRAIGHT ARMS	31	34	21	33	22	21	19	74

W = Width; D = Depth; AH = Arm Height; BH = Back Height; SW = Seat Width; SD = Seat Depth; SH = Seat Height; WT = Weight

BACK

The back frame is constructed with 3/4" engineered paneling with the support system constructed of 11-gauge sinuous wire linked together with a 12-gauge tie wire. The back support system is covered with woven material and high-density polymeric foam. The outside back of the frame is covered with woven material and an additional piece of high-density polymeric foam. The back frame is secured to the base frame with patented metal brackets attached to the base frame with metal-to-metal connections.

BASE

The base frame is constructed of 3/4" engineered paneling with support system constructed of 8-gauge sinuous wire linked together with 12-gauge tie wire. Patented metal brackets are attached with bolts into steel receivers creating a metal-to-metal connection. Legs are attached with steel bolts. Legs use plastic non-marking glides.

ARM

Arm frames are constructed of 3/4" engineered paneling. The frames are covered utilizing 80-point chipboard and high-density polymeric foam. The frames are secured to the base frame with patented metal brackets attached to the base frame with metal-to-metal connections.

SEAT & BACK CUSHION

Cushions are constructed of high-density, polymeric foam.

PLINTH BASE

The plinth base is constructed of plywood. The outside edge is finished veneer. The plinth is attached to the base using steel bolts. The feet use plastic glides.

UPHOLSTERY

All upholstery offerings conform to California Technical Bulletin 117 fire code standard. All estimated yardage quotes are based on 54" non-matched, solid color material unless otherwise specified. Additional yardage and matching fees may apply.

ASSEMBLY AND DISASSEMBLY

All components can be disassembled and removed by loosening the thumbscrew and sliding the components out of the interlocking state. Assembly can be completed within minutes. Upholstery fastens with hook and loop, facilitating removal and replacement of covers.

WARRANTY

This product is warranted against defects in materials and workmanship and against structural damage occurred through normal use for 15 years from date of purchase. Foam is also covered under the 15-year period while fabric is generally covered under the fabric company's warranty. Transformations does not warrant any materials beyond its control.

LACY

LACY LSL & HSL

v100125

Can't decide between classic or contemporary? Why not both?

Want more freedom with the decor style and direction of your environment? Then you're going to love how the Lacy collection can transform your space. The perfect blend of classic and modern, these pieces feature slight angles and smooth curves to round out any decor, and they come with high or low-sloped arm options.

Save Time, Money, and the Environment.

We know life can be hard and messy. On any given day, those chairs and sofas in your lounge, lobby, or common area might be seats, beds, tables, footrests, and even trampolines. You can relax knowing every piece of Transformations Furniture is built to last, comes with a 15- or 35-year warranty, and is 100% renewable upholstered seating. When the inevitable spills, scuffs, scratches, and worse happen, simply clean the covers or repair or replace a damaged part or cover in just a few minutes—no tools required. Want a new look? Simply recover a few pieces and transform your space with the Keep-It program.

PIVOT

v100125

You spin me round like a record baby.

The Pivot chair makes it easy to enjoy everything about a space. Your students, patients, or visitors can chat with a group in one seating area, and when the game on the big screen gets exciting, pivot right around to cheer for their team. This chair's sleek design, beautifully sweeping curves, and unique function make it a top choice for any seating area.

Save Time, Money, and the Environment.

We know life can be hard and messy. On any given day, those chairs and sofas in your lounge, lobby, or common area might be seats, beds, tables, footrests, and even trampolines. You can relax knowing every piece of Transformations Furniture is built to last, comes with a 15- or 35-year warranty, and is 100% renewable upholstered seating. When the inevitable spills, scuffs, scratches, and worse happen, simply clean the covers or repair or replace a damaged part or cover in just a few minutes—no tools required. Want a new look? Simply recover a few pieces and transform your space with the Keep-It program.

PIVOT
PT-C
CHAIR
38" W X 34" D X 30" H

19" PILLOW (PI-19)
OR 25" PILLOW (PI-25)

Pivot Specifications

CODE	ITEM	W	D	AH	BH	SW	SD	SH	WT
PT-C	CHAIR	38	34	-	30	25	22	18	100

W = Width; D = Depth; AH = Arm Height; BH = Back Height; SW = Seat Width; SD = Seat Depth; SH = Seat Height; WT = Weight

BACK & ARM

The back and arm frame is constructed of both 7/8" and 3/4" engineered paneling. The back support system utilizes Lexus webbing strips. The back support system is covered with high-density polymeric foam. The outside back & arms are covered with 80-point chipboard. The back & arm frames are secured to the base frame utilizing a patented interlocking frame construction. The back & arms are secured using metal-to-metal connections.

BASE

The base frame is constructed of both 7/8" and 3/4" engineered paneling with support system constructed of Lexus Webbing. Patented interlocking frame construction is utilized to attach the back, arms and seat deck components to the base.

SEAT

Seat cushions are constructed of high-density, polymeric foam.

UPHOLSTERY

All upholstery offerings conform to California Technical Bulletin 117 fire code standard. All estimated yardage quotes are based on 54" non-matched, solid color material unless otherwise specified. Additional yardage and matching fees may apply. Do to the nature of this style not all fabrics can be used.

MOISTURE BARRIER

Foam is wrapped with laminated, polyurethane, moisture-barrier.

ASSEMBLY AND DISASSEMBLY

All components can be disassembled and removed by loosening the thumbscrew and sliding the components out of the interlocking state. Assembly can be completed within minutes. Upholstery fastens with hook and loop, facilitating removal and replacement of covers.

WARRANTY

This product is warranted against defects in materials and workmanship and against structural damage occurred through normal use for 15 years from date of purchase. Foam is also covered under the 15-year period while fabric is generally covered under the fabric company's warranty. Transformations does not warrant any materials beyond its control.

BACK

The back frame is constructed with 3/4" engineered paneling with the support system constructed of 11-gauge sinuous wire linked together with a 12-gauge tie wire. The back support system is covered with woven material and high-density polymeric foam. The outside back of the frame is covered with woven material and an additional piece of high-density polymeric foam. The back frame is secured to the base frame with patented metal brackets attached to the base frame with metal- to-metal connections.

BASE

The base frame is constructed of 3/4" engineered paneling with support system constructed of 8-gauge sinuous wire linked together with 12-gauge tie wire. Patented metal brackets are attached with bolts into steel receivers creating a metal-to-metal connection. Legs are attached with steel bolts. Legs use plastic non-marking glides.

SEAT

Seat cushions are constructed of high-density, polymeric foam.

ARM

Arm frames are constructed of 3/4" engineered paneling. The frames are covered utilizing 80-point chipboard and high-density polymeric foam. The frames are secured to the base frame with patented metal brackets attached to the base frame with metal- to-metal connections.

BENCHMARK

v100125

It's a bench. It's a table. It's an ottoman.

Whether your guests need a place to rest their tablet, their tootsies, or their tush, the Benchmark is ready to accommodate. And with versatile options—round, square, rectangle, and oval—the Benchmark collection has more shapes than a kindergarten room and even more sizes. Choose from tops that are upholstered, Thermofoil, or laminate and even add a power box. With heights and fabrics that match your furniture, these hubs are a great addition to any space.

Looking to do a whole room?

Benchmark ottomans pair nicely with our other furniture collections.
