

# RISE BOOTH

v022726

## Elevate your space with Rise Booth.

The Rise Booth is a modern, versatile seating solution designed for high-use spaces like dining areas, libraries, and common rooms. Built with Transformations' sustainable "Keep-It" philosophy, Rise is made to last—allowing you to replace individual parts and re-cover fabrics instead of throwing the entire piece away, reducing both waste and long-term costs. Its clean, minimalist design features tall legs that highlight the warmth of wood while being reinforced with strong metal support, creating a refined look that blends seamlessly into nearly any environment.

## Looking to do a whole room?

Meet the Rise family.

### CLEANOUT

The Rise Booth utilizes a gap between the base and the back to allow items to fall to the floor for easy cleaning and maintenance.

### ADJUSTABLE SEAT DEPTH

The Rise Booth seat can be adjusted to be 28" overall seat depth (which allows for 1.5" cleanout gap) or can be extended to 29.5" overall seat depth (which allows for 3" cleanout gap). Talk with your customer service advisor to determine depth when ordering.

RS-S3-72-EXTHB	72" EXTENDED HIGH BACK BOOTH	72	28	-	54	72	18.5	18	170

W = Width; D = Depth; AH = Arm Height; BH = Back Height; SW = Seat Width; SD = Seat Depth; SH = Seat Height; WT = Weight

### BACK

The back frame is constructed with ¾" engineered paneling with the support system constructed of 11-gauge sinuous wire linked together with a 12-gauge tie wire. The back support system is covered with woven material and high-density polymeric foam. The outside back of the frame is covered with woven material and an additional piece of high-density polymeric foam. The back frame is secured to the base frame with patented metal brackets attached to the base frame with metal-to-metal connections.

### BASE

The base frame is constructed of ¾" engineered paneling. The Legs are attached with steel plates and tubes. Legs use plastic non-marking glides.

### ARM

Arm frames are constructed of ¾" engineered paneling. The frames are covered utilizing 80-point chipboard and high-density polymeric foam. The frames are secured to the base frame with patented metal brackets attached to the base frame with metal-to-metal connections.

### SEAT

Seat cushions are constructed of high-density, polymeric foam.

### UPHOLSTERY

All upholstery offerings conform to California Technical Bulletin 117 fire code standard. All estimated yardage quotes are based on 54" non-matched, solid color material unless otherwise specified. Additional yardage and matching fees may apply.

### MOISTURE BARRIER

Foam is wrapped with laminated, polyurethane, moisture-barrier.

### ASSEMBLY AND DISASSEMBLY

All components can be disassembled and removed by loosening the thumbscrew and sliding the components out of the interlocking state. Assembly can be completed within minutes. Upholstery fastens with hook and loop, facilitating removal and replacement of covers.

### WARRANTY

This product is warranted against defects in materials and workmanship and against structural damage occurred through normal use for 35 years from date of purchase. Foam is also covered under the 35-year period while fabric is generally covered under the fabric company's warranty. Transformations does not warrant any materials beyond its control.
