

MAX

v070426

This one hugs you. You'll probably want to hug it back.

This one-of-a-kind chair was crafted to add unique aesthetic appeal to any environment. From a busy lobby to a university study hall, the Max's mid-back design encourages conversation and interaction, while simultaneously providing support that's as comfortable as a hug.

Save Time, Money, and the Environment.

We know life can be hard and messy. On any given day, those chairs and sofas in your lounge, lobby, or common area might be seats, beds, tables, footrests, and even trampolines. You can relax knowing every piece of Transformations Furniture is built to last, comes with a 15- or 35-year warranty, and is 100% renewable upholstered seating. When the inevitable spills, scuffs, scratches, and worse happen, simply clean the covers or repair or replace a damaged part or cover in just a few minutes—no tools required. Want a new look? Simply recover a few pieces and transform your space with the Keep-It program.

Max Specifications

CODE	ITEM	W	D	AH	BH	SW	SD	SH	WT
MX-C	CHAIR	40	37	34	34	25	23	20	75
MX-L	LOVESEAT	67	37	34	34	47	23	20	154
MX-S	SOFA	93	37	34	34	71	23	20	183

W = Width; D = Depth; AH = Arm Height; BH = Back Height; SW = Seat Width; SD = Seat Depth; SH = Seat Height; WT = Weight

BACK

The back frame is constructed with 7/8" & 3/4" engineered paneling with the support system constructed of 11-gauge sinuous wire linked together with a 12-gauge tie wire. The back support system is covered with woven material and high-density polymeric foam. The outside back of the frame is covered with woven material and an additional piece of high-density polymeric foam. The back frame is secured to the base frame with patented metal brackets attached to the base frame with metal-to-metal connections.

BASE

The base frame is constructed of 7/8" & 3/4" engineered paneling. The support system is constructed of a 9-gauge rigid bar spring unit. Patented metal brackets are attached with bolts into steel receivers creating a metal-to-metal connection. Legs are attached with steel bolts. Legs use plastic non-marking glides.

ARM

The arm frame is constructed with 7/8" & 3/4" engineered paneling with the support system constructed of 11-gauge sinuous wire linked together with a 12-gauge tie wire. The arm support system is covered with woven material and high-density polymeric foam. The outside back of the frame is covered with woven material and an additional piece of high-density polymeric foam. The arm frame is secured to the base frame with patented metal brackets attached to the base frame with metal-to-metal connections.

SEAT

Seat cushion uses high-density, polymeric foam which is wrapped around an innerspring unit. The top is covered with a fiber muslin substrate. The seat is permanently attached to the base frame.

UPHOLSTERY

All upholstery offerings conform to California Technical Bulletin 117 fire code standard. All estimated yardage quotes are based on 54" non-matched, solid color material unless otherwise specified. Additional yardage and matching fees may apply.

ASSEMBLY AND DISASSEMBLY

No tools are needed. All components can be disassembled and removed by loosening the thumbscrew and sliding the components out of the tamper-proof interlocking stage. Assembly can be completed within minutes without the usage of tools, and all upholstery fastens with hook and loop, facilitating removal and replacement of covers.

WARRANTY

Transformations warrants all products against defects in materials and workmanship, and against structural damage incurred through normal use, for the specified warranty period (see product warranty chart). Some exclusions apply; see warranty document for details. The warranty is valid from the date of purchase to the original purchaser.

CAL 133

CAL 133 is not currently available for Max products.
